**SCHEDULE "B" to
AMENDED FIVE YEAR FINANCIAL PLAN BYLAW 977, 2024**

In accordance with Section 165(3.1) of the *Community Charter*, the Village of Fruitvale (Village) is required to include in the Five-Year Financial Plan, objectives and policies regarding each of the following:

1. The proportion of total revenue that comes from each of the funding sources described in Section 165(7) of the *Community Charter*,
2. The distribution of property taxes among the property classes, and
3. The use of permissive tax exemptions.

1. Funding Sources

Table 1 shows the proportion of total revenue proposed to be raised for general municipal purposes from each funding source in 2024. Residential property taxes form the greatest proportion of revenue while government grants provide a large portion of funding to ensure capital projects and many operational services are provided.

Representing 33.35% of overall revenue, property taxation offers a number of advantages, for example, it is simple to administer, and it is relatively easy for residents to understand. It offers a stable and reliable source of revenue for services that are difficult or undesirable to fund on a user pay basis. These include services such as general administration, planning services, fire protection, police services, bylaw enforcement, building inspection, roads and streets maintenance and street lighting.

User fees and charges form another significant portion of discretionary revenue. Many services can be measured and charged on a user pay basis. Services where fees and charges may be easily administered include sewer usage, building permits, business licenses, and sale of specific services and therefore, are charged on a user pay basis. User fees attempt to allocate the value of a service to those who use the service.

Table 1: Sources of Revenue

Revenue Sources	% of Total Revenue	\$ Dollar Value
Property Taxes	35.35%	3,541,703
Parcel Taxes	3.59%	381,000
User Fees and Charges	5.37%	570,605
Transfer from Reserves	14.89%	1,581,417
Other Sources	19.73%	2,095,154
Accumulated Surplus and Own Sources	0.76%	81,200
Proceed from Long-Term Borrowing	0%	0
Government Grants	22.31%	2,369,412
Total	100.00%	\$ 10,620,491

Objective

Ensure utilities are self-sustaining. Utilities include solid waste collection and disposal (garbage) and wastewater collection and treatment (sewer). Currently solid waste is self-sustaining through user fees funding both capital and operating costs. Wastewater operational services are funded through user fees. The objective has been to slowly move the funding model to fully cover operational costs from user fees with parcel tax collections solely designated to the high costs of current and future capital improvements and replacements.

Plan for the long-term sustainability of the Village. A fitness gym user fee will ensure maintenance, repair and replacement of the current gym facility and equipment is funded by those using the facility and equipment. The fees ensure sustainability of the fitness gym and meeting user needs without a tax burden to all Village residents and taxpayers.

Ensure strategic use of our resources by proactively applying for public sector funding, pursuing sponsorships and seeking efficiencies. The Village of Fruitvale is applying for public sector funding and seeking partnerships whenever possible to more efficiently provide and use our resources to supplement investment into aging assets.

Policies

The Village will review user fee and parcel tax levels annually to ensure they adequately meet both the capital and delivery costs of the service.

Where possible, the Village will endeavor to supplement revenues from user fees and charges rather than taxation in order to lessen the burden on the residential property tax base.

2. Distribution of Property Tax Rates

Table 2 outlines the distribution of municipal property taxes among the property classes. The residential property class provides the largest proportion of property tax revenue. This is appropriate as this class also forms the largest portion of the assessment base and consumes the majority of Village services.

Table 2: Distribution of Municipal Property Taxes

Property Class	% of Taxation	\$ Dollar Value
CLASS 1 Residential	90.73%	1,095,878
CLASS 2 Utilities	0.62%	7,489
CLASS 3 Supportive Housing		
CLASS 4 Major Industry		
CLASS 5 Light Industry	0.11%	1,301
CLASS 6 Business & Other	8.54%	103,178
CLASS 7 Managed Forest Land		
CLASS 8 Recreation/Non-profit		
CLASS 9 Farm		
Total	100.00%	\$ 1,207,818

Objective

The residential assessment base is 90.73% of all Village assessments. Businesses, while 8.54% of the total assessment base, receive a slightly elevated level of service. The objective is to correspond the proportionate percentage of tax collections to the level of service relative to the use of services.

Policies

Create financial sustainability of the Village by increasing awareness of Asset Management. Fund services appropriately to include a capital cost charge which represents the use of assets today while also ensuring proper maintenance, operation and replacement of assets. Relate the use of services to the use of assets which provide those services and proportionately allocate the costs to those using the services.

3. Permissive Tax Exemptions

The Village has an existing permissive tax exemption policy which guides the administration and approval of permissive tax exemptions. Eligibility criteria for permissive tax exemptions that are outlined in the policy include the following:

- The tax exemption must demonstrate benefit to the community and residents of the Village by enhancing the quality of life, economically, socially or culturally within the community.
- The goals, policies and principles of the organization receiving the exemption must not be inconsistent or in conflict with those of the Village.
- The organization receiving the exemption must be a registered non-profit society, as the support of the municipality will not be used for commercial or private gain.
- Permissive tax exemptions will be considered in conjunction with:
 - other assistance being provided by the Village;
 - the potential demands for Village services or infrastructure arising from the property; and
 - the amount of revenue that the Village will forego if the exemption is granted.

Objective

The Village will continue to provide permissive tax exemptions to non-profit societies who provide a benefit to the community.

Policies

Review the tax exemption policy annually to assess activities that will be targeted in compliance with the Official Community Plan guidelines.
