

LGCAP 2025

Submitted date: 2026-07-23 11:41:03 Pacific Daylight Time

Generated date: 2026-07-23 11:41:13 Pacific Daylight Time

Introduction

The Local Government Climate Action Program (the Program or LGCAP) aims to catalyze the efficient flow of financial resources, data and knowledge between Modern Treaty Nations, local governments, and the Provincial Government to allow for cost effective, impactful, locally implemented climate action. For more information about the Program you can refer to the website.

What is climate action?

For the purposes of this program, a climate initiative or action is one that reduces greenhouse gas (GHG) emissions (mitigation) and/or strengthens resilience to the impacts of climate change (adaptation). This includes (but is not limited to): climate-related hazards; integrating climate change measures into policies, strategies, planning and investments; improving education; raising awareness of climate change causes and solutions; increasing human and institutional capacity with respect to climate change mitigation and adaptation, impact reduction and early warning systems.

Information collected will:

Highlight local government and Modern Treaty Nation climate leadership;
Profile action by including local government and Modern Treaty Nation emissions, resilience and climate action performance data in the annual Climate Change Accountability Report, LGCAP Summary Report and on the Program's public facing website;
Help inform policy development and monitor progress on achieving provincial and local climate objectives; and
Support provincial efforts to better collaborate with and enable communities to advance climate action.

The survey was informed by:

Feedback from local governments, Modern Treaty Nations, external and ministerial partners;
National and international GHG reporting protocols; and
The CDP (formerly Carbon Disclosure Project, a global non-financial disclosure system).

Instructions

Survey: Word Version

This version can be used to gather information from staff across departments. Then simply cut and paste into the online version where you will be submitting the survey. You can download the Word version here: [Local Government LGCAP 2025 Survey Template](#).

Survey: Online Version

SimpleSurvey allows multiple users to access your survey, though two people cannot enter information at the same time.

For other users to contribute to your survey, simply share the unique link with your team members. Users must select "Save and continue later" when they are done updating the survey but not ready to submit.

Please note:

Please do not provide any personal information (e.g. email, phone number) in the survey.

Required fields are indicated with a red asterisk (*). You will not be able to submit the survey and attestation form without completing these fields.

Some fields have formatting considerations (i.e. numbers only). You will not be able to submit the survey and attestation form until all required fields are completed properly. The red text error message will indicate what is needed.

No commas are to be used in numerical fields.

There is a 9,999 character limit for the open-ended questions, unless otherwise noted.

If any questions are left blank, including optional ones, SimpleSurvey will notify you when you move to the next page with "You have unanswered questions, do you wish to continue?" If you are choosing to leave optional questions blank, simply click yes to move to the next page.

Questions with substantial updates from last year's survey are flagged with an exclamation mark (!).

You can see what your community has previously reported for LGCAP in the LGCAP Raw Survey Data.

For Questions 10-13 and 20 we ask that initiatives are separated by corporate and community.

Community-wide initiatives are actions that impact the entire community as opposed to local government assets and operations. These could include setting community or sector-wide GHG reduction targets, investing in public EV charging infrastructure, and engaging residents in climate efforts.

Corporate initiatives, on the other hand, focus on the assets and operations of a local government or Modern Treaty Nation - such as investments in municipal buildings, fleets, policies and plans. Corporate operations climate initiatives could include energy retrofits to a community recreation centre, purchasing low-emissions fleet vehicles and purchasing carbon offsets to achieve corporate carbon neutrality.

Please ensure responses align with your community's most recent Official Community Plan (OCP) or Regional Growth Strategy (RGS) update, particularly when answering Question 7.

Attestation Form

The attestation form is filled in after survey questions are completed. It is the second page of the SimpleSurvey submission. The attestation form is where the Chief Financial Officer, or equivalent position, attests to the following:

That Local Government Climate Action Program funding has been, or will be, allocated to climate action.
That Local Government Climate Action Program funds received in 2024 will be spent by March 31, 2028.
That a completed and signed version of this form and survey contents will be publicly posted by September 30, 2026.

Requirements

1. Reporting

Report on at least one project linked to objectives from the CleanBC Roadmap to 2030 and/or Climate Preparedness and Adaptation Strategy. If your community reports one initiative related to one sector (e.g. buildings) you have satisfied this requirement. Funding for the project(s) does not need to come from this program.

Please note the Province is currently considering recommendations from the independent and advisory CleanBC Review; any changes that are made will be thoughtful, practical and focused on affordability for people. Program areas will reach out to partners and stakeholders if there are any next steps related to CleanBC policies and programs.

For communities with populations of 5,000+ (based on 2020 B.C. Census data figures), measuring and reporting local government's traditional services emissions is required.
Attest that funds will be allocated to climate initiatives before submitting your survey.

Climate action success stories

Open-ended survey questions that describe one or more climate action initiatives may be highlighted in Provincial materials to acknowledge innovative local climate solutions. To be considered for inclusion on the Local Government Climate Action Highlights webpage, responses must be at least two complete sentences and provide enough detail for us to understand the initiative's key elements (what, when, where, and why). Please refer to the Local Government Climate Action Success Stories Submission Form for guidance on how to complete the highlights sections for Questions 10–13, Question 19 and Question 20.

Climate action success stories are accepted year-round

In addition to mining LGCAP survey data, we accept success stories for publication any time of year. The template to submit stories outside of the LGCAP survey can be found on the Local government climate action highlights webpage.

2. Deadline to submit the survey & attestation form

The deadline for submitting your survey and attestation form is July 31, 2026.

3. Posting the survey & attestation form publicly

The design / format of the form can be changed, however, all information from required questions must be included.

Optional questions and answers can be omitted.

The deadline to post the survey and attestation form publicly is September 30, 2026.

Note: Eligibility for the Program is determined solely by meeting the stated requirements. Additional climate action initiatives or dedicated climate action staff are not required and do not affect eligibility.

Download a copy for your records!

Once submitted, you can download a copy of the completed survey and attestation form (PDF, Excel, and Word options). If you close this window before the download link appears, please reach out for a copy of your submission.

Support

If the survey is accidentally submitted, a submitted survey needs to be revised, or if you have any questions, please reach out to us at LGCAP@gov.bc.ca. We will be happy to help.

Thank you!

The LGCAP Team

The Survey

Climate Action Planning

Climate Action Plans are strategic roadmaps that identify how an organization will reduce their greenhouse gas (GHG) emissions (mitigation), increase their resilience to the impacts of climate change (adaptation), or a combination of both.

To answer the following questions, consider staff that contribute to activities that reduce GHG emissions and/or strengthen resilience and the ability to adapt to climate-induced impacts. This includes (but is not limited to): climate-related hazards; integrating climate change measures into policies, strategies and planning; improving education, raising awareness of climate change causes and solutions, increasing human and institutional capacity with respect to climate change mitigation and adaptation, impact reduction and early warning systems.

Question 1: How many full time equivalent (FTE) staff work on climate action in your organization?

Include only staff who have climate action as part of their job duties. Estimate FTE(s) in decimal format (0.00) by reporting the portion of time spent on climate work. For example, say your community had: Climate Coordinator: 100% time = 1.0 FTE Planner II: 50% time = 0.5 FTE Engineering Technologist: 25% time = 0.25 FTE Facilities Manager: 10% time = 0.1 FTE Total (what you would enter below) = 1.85 If there are no staff dedicated to working on climate action, that's 0% time, please enter 0.0.

0.1

Question 2: Does your local government or Nation have a community-wide climate action plan or other guiding document(s)?

☒ Yes

☐ No

Please select the type of plan(s) from the list.

In the textbox, indicate the date the plan was adopted/approved in format YYYY-MM. If you don't remember the month, you can enter "01" for January.

☐ Integrated climate plan (addressing mitigation, adaptation and/or energy use)

☐ Integrated climate plan (addressing mitigation and adaptation)

☐ Integrated climate plan (addressing mitigation and energy)

☐ Integrated climate plan (addressing adaptation and energy)

☐ Standalone mitigation plan

☐ Standalone adaptation plan

☒ Standalone energy-related plan

2023-01

☐ Don't know

Please include a link to the document or webpage if available.

chrome-extension://efaidnbmnnnibpcajpcglclefindmkaj/https://fruitvale.ca/wp-content/uploads/2023/10/Fruitvale-RES-Final.pdf

Question 3: Does your local government or Nation have a corporate climate action plan or other guiding document(s)?

☐ Yes

☒ No

If not, please select one or more options from the list.

☐ No, but we are currently undertaking one and it will be completed in the next two years.

☐ No, we are not intending to undertake one due to lack of financial capacity.

☒ No, we are not intending to undertake one due to lack of expertise or technical capacity.

Question 4: Please select up to 3 challenges impeding the advancement of climate action in your community.

- ☐ Lack of jurisdiction
- ☒ Lack of staff capacity or expertise
- ☒ Lack of financial resources
- ☐ Lack of data or information
- ☐ Lack of provincial or federal government support or collaboration
- ☒ Competing priorities
- ☐ Other (please specify):

Traditional Services Greenhouse Gas Emissions

Measuring and reporting traditional services emissions (defined in previous years as corporate emissions) is a Program requirement for all communities with a 2020 population of 5,000 residents and above (see population statistics [here](#)).

This requirement can be fulfilled using an established reporting framework of your choosing (CDP, GHG Protocol for Cities, etc.), including the LGCAP scope and boundaries described in the LGCAP Traditional Services Boundaries and Scope Guidance. Contracted emissions must be accounted for regardless of which protocol your local government employs. Local governments with populations below 5,000 and Modern Treaty Nations are not required to report traditional services greenhouse gas emissions but are encouraged and supported to do so on a voluntary basis.

Traditional services GHG emissions are those produced by the delivery of local government or Modern Treaty Nation “traditional services” including:

Fire protection,
Solid waste management,
Recreational / cultural services,
Road and traffic operations,
Water and wastewater management, and
Local government administration.

Please see the following resources for guidance:

LGCAP Traditional Services Boundaries and Scope Guidance

Scope Summary for Traditional Services GHG Emissions
Traditional Services Emissions Inventory Reporting Tool
Contracted Services Emissions Guidance
Contracted Services Emissions Calculator
B.C. Best Practices Methodology for Quantifying GHG Emissions
Emission Factors Catalogue

Question 5: For the 2025 calendar year, has your local government or Nation measured and reported associated traditional services GHG emissions?

If your local government or Nation is only reporting traditional services inventory through this LGCAP survey, please select “Yes”.

- ☒ Yes
- ☐ No, but for a past year. (Please enter most recent year completed: YYYY)
- ☐ No

If your local government or Nation measured 2025 traditional services GHG emissions, please report the GHG emissions from services delivered directly (in tonnes of carbon dioxide equivalent) from scope 1 and 2 sources.

For determining which emission sources are in scope, please refer to the LGCAP Traditional Services Boundaries and Scope Guidance. Format: Up to two decimal places and no commas (e.g. 1250.47)

128.5

If your local government or Nation measured 2025 traditional services GHG emissions, please report the GHG emissions from contracted services (in tonnes of carbon dioxide equivalent) from scope 1 and scope 2 sources.

For determining which emission sources are in scope, please refer to the LGCAP Traditional Services Boundaries and Scope Guidance. Format: Up to two decimal places and no commas (e.g. 1250.47)

0

If your local government or Nation measured 2025 traditional services GHG emissions, please report the total GHG emissions from both directly delivered and contracted services (in tonnes of carbon dioxide equivalent) from scope 1 and scope 2 sources. For determining which emission sources are in scope, please refer to the LGCAP Traditional Services Boundaries and Scope Guidance. This would be the sum of the two questions above. Format: Up to two decimal places and no commas (e.g. 1250.47)

128.5

If your local government or Nation measured 2025 traditional services GHG emissions, please report what protocol you used to measure emissions.

- ☒ LGCAP methodology (our guidance documents such as the BC Best Practices Methodology for Quantifying GHG Emissions and the LGCAP Traditional Services Boundaries and Scope Guidance)
- ☐ CDP
- ☐ Greenhouse Gas Protocol
- ☐ Other (please specify):

Community-Wide Greenhouse Gas Emissions

B.C. Climate Action Charter signatories have committed to measuring and reporting their community-wide GHG emissions generated from all GHG sources (anthropogenic) within their community boundary.

The Community Energy and Emissions Inventory (CEEI) initiative provides a provincial framework for tracking and reporting energy and GHG emissions at a community-wide scale. It is published with a two-year lag, however, raw unprocessed data can be requested by local governments that wish to measure and report their community-wide emissions for the buildings, on-road transportation and municipal solid waste sectors ahead of publication.

The Communities Team is aware that some local governments are developing their own community-wide GHG emissions inventories (separate from the provincial CEEI). A better understanding of community-wide emissions measurement at the local level will help the Communities Team as we upgrade the CEEI.

(!) Question 6: For the 2025 calendar year, have community-wide GHG emissions been measured for your local government or Nation (including on your behalf by your regional district)?

- ☐ Yes/In-progress

☐ No, but for a past year

☒ No

If not, please select all that apply from the list.

☐ No, community GHG emissions were not reported because the 2024 Provincial Community Energy and Emissions Inventory data has not been released.

☒ No, we do not measure and report community-wide emissions data due to lack of financial capacity.

☒ No, we do not measure and report community-wide emissions data due to lack of staff and technical capacity.

☐ No, we do not measure and report community-wide emissions annually. (Please indicate most recent year completed: YYYY)

Question 7: Currently, the Province's legislated GHG emission reduction targets are 40% by 2030, 60% by 2040 and 80% by 2050, relative to 2007. Please state your local government or Nation's target(s).

Please ensure your response reflects your community's most recent OCP or RGS update. Please enter "0" if no targets or baseline are established for the years given in the table.

	Reduction Percentage (format: e.g., 40)	Baseline Year (format: e.g., 2007)
2030	40	2007
2040	60	2007
2050	100	2007

If your local government or Nation's targets don't conform to the target years noted above, please enter them here. Format e.g.: target 2035 50% baseline 2010, target 2060 70% baseline 2010, ...

--

Question 8: Does your local government or Nation have net-zero or carbon-neutral emissions target(s)?

For the purposes of our reporting, we're only asking about net-zero and carbon neutrality, but acknowledge that there are a variety of corporate targets. Net-zero refers to a jurisdiction or organization achieving a balance between greenhouse gas emissions produced and removed from the atmosphere (e.g. planting trees or using carbon capture technologies) Carbon neutral refers to an organization reducing emissions as much as practicable and then offsetting the remainder by purchasing offsets or other similar mechanisms Please select all that apply.

☐ Yes: Community-wide net-zero target

☐ Yes: Corporate carbon neutrality

☒ Yes: Corporate net-zero target

☐ No

Question 9: Please select up to three supporting indicators that would be most valuable to your local government or Nation to advance climate action.

Previously, the Province reported these indicators through the Community Energy and Emissions Inventory initiative. The Province could prioritize publishing these indicators again in the future.

☒ Housing type: Private dwellings by structural type

☒ Floor area: Average floor area by building category and era

☒ Residential density: Population and dwelling units per square land area (km²)

☐ Commute by mode: Employed labour force by mode of commute

☐ Greenspace: Land area that is parks and protected greenspace

☐ Walk score: Proximity to services

☐ Proximity to transit: Persons, dwelling units and employment within walking distance of a transit stop/line

☐ Other (please specify):

Provincial Policy Alignment - Mitigation

The CleanBC Roadmap to 2030 is B.C.'s plan to meet provincial emissions reduction targets to be 40% below 2007 levels for 2030 and set us on course to reach net-zero emissions by 2050.

One requirement of this Program is that you must report on a minimum of one project linked to objectives from the CleanBC Roadmap to 2030 and/or Climate Preparedness and Adaptation Strategy (CPAS). Funding does not need to come from this program. For questions 10-13, if your community reports one initiative related to one sector (e.g. buildings) you have satisfied this requirement. That said, please select all that apply.

For questions 10-13, please note the following regarding "Ongoing" initiatives. "Ongoing" includes initiatives that are either:

Implemented in previous years and still active (e.g., an organics diversion project started in 2022 that continues to divert waste).

Currently available or in effect in 2025 (e.g., supplementing Provincial energy efficiency incentive programs).

For questions 10-13 we ask that initiatives are separated by corporate and community.

Community-wide initiatives are actions that impact the entire community as opposed to local government assets and operations. These could include setting community or sector-wide GHG reduction targets, investing in public EV charging infrastructure, and engaging residents in climate efforts.

Corporate initiatives, on the other hand, focus on the assets and operations of a local government or Modern Treaty Nation - such as investments in municipal buildings, fleets, policies and plans. Corporate operations climate initiatives could include energy retrofits to a community recreation centre, purchasing low-emissions fleet vehicles and purchasing carbon offsets to achieve corporate carbon neutrality.

Question 10: Please indicate all climate initiatives your local government or Nation had in-progress, ongoing or completed in the 2025 calendar year related to the buildings sector.

This should not be limited to what your LGCAP funding supported.

☒ Corporate

☐ Community

☐ Not applicable

Corporate buildings policies, programs and actions

- ☐ Highest efficiency standards for new space and water heating equipment
- ☐ B.C. Energy Step Code adoption (Step 4 or higher)
- ☐ Zero Carbon Step Code adoption
- ☒ Efficiency upgrades/retrofits
- ☐ Requirement to use mass timber in new buildings
- ☐ Requirement to measure embodied carbon
- ☐ Other (please specify):

Please highlight one or more project(s) that were in-progress, ongoing or completed in the 2025 calendar year related to buildings.

Please enter NA if your community reported no buildings initiatives ongoing, completed or in-progress for 2025. Responses must include at least two complete sentences to be considered for highlighting on the Local Government Climate Action Highlights webpage, providing sufficient detail for us to clearly understand the initiative (what, when, where, and why). Please refer to the Local Government Climate Action Success Stories submission form for guidance on how to complete the highlights section.

Upgraded 2 air conditioning units with modern more efficient ones for our Community Hall.

Question 11: Please indicate all climate initiatives your local government or Nation had in-progress, ongoing or completed in the 2025 calendar year related to the transportation sector.

This should not be limited to what your LGCAP funding supported.

- ☒ Corporate
- ☐ Community
- ☐ Not applicable

Corporate transportation policies, programs and actions

- ☐ Programs to increase high-occupancy (2 or more people) vehicle trips (i.e. carpooling)

☐ Established personal (passenger) transportation target goals, and measures to reach them, in annual reports – may include target goals for vehicle kilometre reduction, mode share for active transportation and zero-emission vehicles

☐ Established commercial transportation target goals, and measures to reach them, in annual reports – may include target goals for vehicle kilometre reduction, mode share for energy efficient commercial transportation and zero-emission vehicles

☒ Implemented zero-emission vehicle first procurement policy for all local government on and off-road vehicles purchases

☐ Implemented a zero-emission vehicle preference or requirement for contracted work from a service provider

☒ Active transportation infrastructure investments

☐ Active transportation education and encouragement programs

☐ Expanded micromobility access, bylaws and/or infrastructure (e.g. introduced or expanded bike/e-bike/e-scooter sharing programs, built new bike/scooter lanes, updated bylaws for use of bikes/scooters)

☐ Installation of secure bike parking (i.e. bike valet)

☐ Electric vehicle charging studies/planning

☐ Electric vehicle charging infrastructure investments

☒ Electric vehicle purchases and electric equipment/machinery purchases (i.e. electric zambonis)

☐ Required new and/or existing gasoline and card lock fuel stations to include zero-emission vehicle infrastructure development

☐ Other (please specify):

Please highlight one or more project(s) that were in-progress, ongoing or completed in the 2025 calendar year related to transportation.

Please enter NA if your community reported no transportation initiatives ongoing, completed or in-progress for 2025. Responses must include at least two complete sentences to be considered for highlighting on the Local Government Climate Action Highlights webpage, providing sufficient detail for us to clearly understand the initiative (what, when, where, and why). Please refer to the Local Government Climate Action Success Stories submission form for guidance on how to complete the highlights section.

Purchased a hybrid 4X4 Ford F-150 Supercrew truck for our fleet.

Purchased solar-powered speed zone signs and installed in our playground zones.

Replaced small gasoline power tools with battery operated ones.

Continuing to apply for larger Active Transportation Grants to put the larger projects from our Active Transportation into action.

Question 12: Please indicate all other climate initiatives (excluding buildings, transportation, and adaptation and resilience) your local government or Nation had in-progress, ongoing or completed in the 2025 calendar year related to community-wide and corporate action.

This section includes initiatives such as land-use planning, renewable energy projects, waste diversion, etc. This should not be limited to what your LGCAP funding supported.

☐ Corporate

☐ Community

☒ Not applicable

Please highlight one or more project(s) that were in-progress, ongoing or completed in the 2025 calendar year related to community-wide or corporate action.

Please enter NA if your community reported no community-wide or corporate initiatives ongoing, completed or in-progress for 2025. Responses must include at least two complete sentences to be considered for highlighting on the Local Government Climate Action Highlights webpage, providing sufficient detail for us to clearly understand the initiative (what, when, where, and why). Please refer to the Local Government Climate Action Success Stories submission form for guidance on how to complete the highlights section.

N/A

Provincial Policy Alignment - Resilience and Adaptation

The goal of climate adaptation is to reduce risk and vulnerability associated with climate change impacts. To manage climate impacts, local governments and Nations are integrating climate adaptation principles into decisions and everyday activities.

One requirement of this Program is that you must report on at least one or more project(s) linked to one or more objectives from the CleanBC Roadmap to 2030 and/or the Climate Preparedness and Adaptation Strategy (CPAS) in Questions 10-13. If your community reports one initiative related to one sector you have satisfied this requirement, but please select all that apply for Questions 10-13.

Question 13: Please indicate all initiatives your local government or Nation had completed, ongoing or in-progress in the 2025 calendar year to adapt to and build resilience to climate impacts.

This should not be limited to what your LGCAP funding supported.

☒ Corporate

☒ Community

☐ Not applicable

Corporate resilience and adaptation policies, programs and actions

☐ Undertaking or completing a risk assessment at the asset or project level

☐ Undertaking or completing a Hazard Risk Vulnerability Assessment (HRVA) at the asset or project level

☐ Addressing current and future climate risks through plans, adaptation measure implementation, programs, service delivery, asset management and/or other functions

- ☐ Collaboration with other communities on resilience planning/initiatives
- ☒ Monitoring climate risks or impacts (floods, wildfire, etc.)
- ☐ Providing training (adaptation and mitigation skills)
- ☐ Creation of policy/procedures to affect change (climate considerations into decision-making processes)
- ☐ Creating data systems to support climate action
- ☐ Utilizing natural assets/nature-based solutions
- ☐ Developing emergency/hazard response plans
- ☐ Developing business continuity or similar plan(s)
- ☐ Other (please specify):

Community-wide resilience and adaptation policies, programs and actions

- ☐ Undertaking or completing a risk assessment at the community level
- ☐ Undertaking or completing a Hazard Risk Vulnerability Assessment (HRVA) at the community level
- ☐ Addressing current and future climate risks through plans, adaptation measure implementation, programs, service delivery, asset management and/or other functions
- ☐ Collaboration with other communities on resilience planning/initiatives
- ☐ Hydro climatological data collection
- ☐ Monitoring climate risks or impacts (floods, wildfire, etc.)
- ☐ Public engagement on climate risks and actions
- ☐ Providing training (adaptation and mitigation skills)
- ☐ Creation of policy/procedures to affect change (climate considerations into decision-making processes)
- ☐ Creating data systems to support climate action
- ☒ Developing or acquiring hazard or climate risk mapping (e.g., floodplains), data or similar information
- ☒ Utilizing natural assets/nature-based solutions

☐ Developing emergency/hazard response plans

☐ Other (please specify):

Please highlight one or more climate adaptation project(s) that were completed, ongoing or in-progress in the 2025 calendar year to reduce risk and increase resilience.

Please enter NA if your community reported no initiatives to reduce risk and increase resilience that were ongoing, completed or in-progress for 2025. Responses must include at least two complete sentences to be considered for the Local Government Climate Action Highlights webpage, providing sufficient detail for us to clearly understand the initiative (what, when, where, and why). Please refer to the submission form for guidance on how to complete the highlights section. The Ministry of Emergency Management and Climate Readiness may use these on ClimateReadyBC.

Completed a floodplain mapping project.

Completed a shade tree planting project on village property.

Question 14 a): Has a climate risk and vulnerability or similar assessment been undertaken for your local government or Nation?

Please select all that apply. If completed, please provide the year of completion in the textbox (YYYY).

☐ Yes at the community level

☐ Yes at the asset or project level

☒ No

If available, please provide a link to the document:

If not, please select one or more options from the list.

☒ No, but we are currently undertaking one and it will be complete in the next two years.

☐ No, we are not intending to undertake due to lack of financial capacity.

☐ No, we are not intending to undertake due to lack of staff and technical capacity.

☐ No, we are waiting for directions from the Provincial Government before undertaking an assessment.

Question 14 b): Are you integrating climate risk into asset management, budgeting and climate action plans?

☒ Yes, in asset management

☐ Yes, in budgeting

☐ Yes, in climate action plans

☐ No

(!) Question 15 a): Please select the most significant climate hazards faced by your community and please specify the associated adaptation measures completed or in-progress in the 2025 calendar year, if any.

I.e. for extreme heat: cooling stations. If entering a hazard under "Other", please write the hazard and related measure(s) in the textbox. Textbox limit: 998 characters

☒ Extreme heat

Continued a shade tree planting program on village property. Replaced 2 air conditioning units for our community hall with 2 new ones.

☐ Extreme cold, snow and/or ice

☐ Drought

☐ Wildfire

☒ Wildfire smoke

Made sure building filters are clean

☒ Overland/riverine flooding

Completed an engineering report and maps to determine 20 and 200 year flooding events

☐ Coastal flooding and/or storm surge events

☐ Wind, rain, and/or other storm events

☐ Landslides

☐ Not applicable/no hazards

☐ Not sure

☐ Other (please specify both the hazard and adaptation measure):

(!) Question 15 b): Please select the impacts your community experienced in the 2025 calendar year related to the hazards above.

Select all that apply

☐ Heat-related illness

☐ Respiratory impacts (e.g., reduced air quality, smoke exposure)

☐ Evacuations or displacement of residents

☐ Damage to roads, bridges, or transportation networks

☐ Damage to water, wastewater, or stormwater systems

☒ Water shortages or restrictions

☐ Impacts to drinking water quality

☐ Power outages or electrical system strain

☐ Damage to buildings or critical facilities

☐ Service disruptions (e.g. transit, waste collection, recreation facilities)

☐ Increased operating costs for response and recovery

☐ Increased erosion or slope instability

☐ Biodiversity loss or ecosystem stress

☐ Negative impacts to local businesses or tourism

☐ Insurance losses or increased premiums

☐ Cultural impacts (e.g., threats to identities, languages, and livelihoods)

☐ No significant impacts

☐ Not sure

☐ Other (please specify):

Question 16: What information do you need to know to be able to plan effectively for the future of your community, with respect to the hazards and impacts identified in Question 15?

Please select one or more of what you consider the most valuable types of information for planning.

- ☐ Local knowledge
- ☒ Localized climate modelling and projected scenarios
- ☒ Assessment of potential community impacts
- ☐ Assessment of community vulnerabilities
- ☐ Risk assessment of hazards
- ☒ Mapping of climate change impacts and hazards
- ☒ Demographic information
- ☒ Projected development
- ☐ Adaptation planning information
- ☐ Technical expertise to implement solutions
- ☐ Community/partner engagement and support
- ☐ Information on partnership opportunities
- ☒ Examples of actions taken by other communities
- ☐ Not sure
- ☐ Other (please specify):

Question 17: Please indicate all initiatives your local government or Nation had completed, ongoing or in-progress in the 2025 calendar year related to working with neighbouring communities.

Please select all that apply.

- ☐ Collaborating on preparing, reviewing or revising a climate or natural hazard risk assessment
- ☒ Collaborating on preparing, reviewing or revising an emergency management and/or hazard response plans

☒ Entering into agreements related to emergency management planning and/or multijurisdictional emergency management organization (this option excludes mutual aid agreements such as fire protection services)

☒ Collaborating on data collection, mapping or monitoring climate risks

☐ Collaborating on providing emergency management training and/or conducting training exercises to major emergency event

☐ Not applicable

(!) Question 18: Has your local government or Nation completed a natural asset inventory (an assessment of natural resources like forests, wetlands, and waterways for their ecosystem services and value)?

☐ Yes

☐ In progress

☒ No

If no, what are the primary barriers preventing your local government or Nation from completing a natural asset inventory?

Please select all that apply.

☐ Lack of awareness

☒ Lack of funding

☒ Lack of capacity (staff, expertise, etc.)

☒ Not a current priority for council, directors, or leadership

☐ Other (please specify):

Equity

Certain populations are more vulnerable to climate hazards and impacts (e.g. people experiencing homelessness, low-income households, seniors/elders, people living alone).

Taking an equity-informed approach to climate action is about enhancing climate resilience for everyone in B.C., regardless of where and how they live and requires a just approach that integrates equity considerations into climate planning and adaptation responses.

(!) Question 19: How does your local government or Nation ensure equitable access to and distribution of climate action opportunities and benefits?

Please select all that apply.

- ☐ By collecting and analyzing disaggregated and/or spatial data to inform the design and/or monitor the implementation of climate actions
- ☐ By partnering with other organizations (such as health authorities, social service agencies, or Indigenous leadership bodies)
- ☐ By collecting disaggregated or spatial data on the impacts of climate actions
- ☐ By engaging with equity seeking groups/frontline communities most impacted by climate change
- ☐ By designing and/or implementing climate actions that address the needs of equity seeking groups/frontline communities most impacted by climate change
- ☐ By undertaking wider benefits and/or equity assessments for its climate actions
- ☐ By working to ensure climate actions align with UNDRIP and/or national laws pertaining to Indigenous rights
- ☐ No but the community is preparing to incorporate measures over the next year
- ☐ No but the community is preparing to incorporate measures over the next two years
- ☒ No and the community is not intending to incorporate measures
- ☐ Not sure if equity is being integrated into our climate action work

LGCAP Funding

The Program must be able to demonstrate the impact this funding has on greenhouse gas emissions reductions, resilience and adaptation, and building local capacity to advance climate action in B.C. To substantiate the Program, we must develop a baseline understanding of where local governments and Nations are at with respect to climate action and track progress over time.

For Question 20 we ask that initiatives are separated by corporate and community.

Community-wide initiatives are actions that impact the entire community as opposed to local government assets and operations. These could include setting community or sector-wide GHG reduction targets, investing in public EV charging infrastructure, and engaging residents in climate efforts.

Corporate initiatives, on the other hand, focus on the assets and operations of a local government or Modern Treaty Nation - such as investments in municipal buildings, fleets, policies and plans. Corporate operations climate initiatives could include energy retrofits to a community recreation centre, purchasing low-emissions fleet vehicles and purchasing carbon offsets to achieve corporate carbon neutrality.

Question 20: In the previous calendar year (2025), how did your local government or Nation spend or commit to spend its remaining LGCAP funding received in the March 2024 3-year lump sum? Based on our records for your community, these funds total: \$167,254. This is the amount of your March 2024 3-year lump sum that was reported on hold in the LGCAP 2024 survey, if any.

Instructions: Please ensure the amount(s) entered below equals the dollar amount displayed above. Please select all that apply and indicate the total dollar value associated with each initiative. Please select "funds on hold" for any funding that was not spent or committed to be spent during the 2025 calendar year. For the purposes of this question, "committed to be spent" refers to having officially allocated funding for specific projects with certainty, even if it has not yet been spent. You can see what your community has previously reported for LGCAP funding in the LGCAP Raw Survey Data. Format: no dollar sign, no comma and up to two decimal places.

☒ Corporate

☐ Community

☒ Funds on hold

147006

☐ Not applicable (Amount flagged in the question is \$0 as all funds were reported as spent in the LGCAP 2024 survey)

Corporate Initiatives

☐ Buildings initiatives

☐ Transportation initiatives

☐ Resilience and adaptation initiatives

■ Other corporate-wide initiatives

Corporate climate policies, programs and actions

Textbox format: no dollar sign and up to two decimal points (i.e. 2500 or 657.25).

- ☐ Staffing
- ☐ Energy study
- ☐ Climate study
- ☐ Traditional services emissions reporting

■ Asset management

20248

- ☐ Climate finance planning
- ☐ Leveraging funds from other sources/ grant stacking
- ☐ Circular economy or zero waste strategy
- ☐ Sustainable procurement policy
- ☐ Renewable energy investments (e.g. district energy, waste heat recovery, biomass)
- ☐ Supporting green/blue carbon sequestration
- ☐ Developing compliance carbon offset projects
- ☐ Developing voluntary carbon offset projects
- ☐ Other

Please use this textbox to enter the initiative(s) the "other" funding amount above has gone towards:

(!) Funds on hold - How will funds be allocated?

■ No decision has been made.

☐ If a decision has been made, please enter the project(s) and the amount of funding that will go towards each (if known):

To expand upon your selection(s), please highlight the initiative(s) your local government or Nation's LGCAP funding received in March 2024 has been spent on or committed towards in the 2025 calendar year.

Please provide specifics on your selections made above such as the kind of technology used, the scale/scope, the building/location, or the expected impact (i.e. the make and model of an EV, the kilometres of a bike lane built...). Responses must include at least two complete sentences to be considered for highlighting on the Local Government Climate Action Highlights webpage, providing sufficient detail for us to clearly understand the initiative (what, when, where, and why). Please refer to the Local Government Climate Action Success Stories submission form for guidance on how to complete the highlights section.

N/A

Question 21 a): What is your internal decision criteria for spending LGCAP dollars?

Is there a shovel-ready project? Do we have the capacity in our team to do the work?

Question 21 b): Does your local government or Nation use a formal framework to apply a climate lens on infrastructure planning and decision-making?

This could include the Provincial preliminary GHG assessment guidance, the Federal climate lens guidance, or another climate lens framework.

☐ Yes

☒ No

Question 22 a): In the previous calendar year (2025), how much additional external funding for climate action were you able to acquire by leveraging your 2024 LGCAP funds? This could include matching grants as well as private investment.

Format: no dollar sign, no comma, and up to two decimal places

0.00

Question 22 b): Please list the funding programs leveraged and associated funders (i.e. Investing in Canada Infrastructure Program, Canada/Province).

Please enter "NA" if no funds were leveraged.

N/A

Please note on posting the survey publicly:

All information from the required questions must be included.
Optional questions and responses can be omitted.

The Province will use the information from optional questions for internal purposes only.

When posting the survey publicly, the design / format of the form can be changed.

Local Government Climate Action Program Attestation Form

Instructions for the Attestor (CFO or equivalent staff person):
Complete and sign this form by filling in the fields below.

I, the Chief Financial Officer, or equivalent position, attest to the following:

That Local Government Climate Action Program funding has been, or will be, allocated to climate action.
That Local Government Climate Action Program funds received in 2024 will be spent by March 31, 2028.
That a completed and signed version of this form and survey contents will be publicly posted by
September 30, 2026.
